Institutional Data Analysis

Indigenous Land Acknowledgement

Athabasca University respectfully acknowledges that we live and work on the Traditional Lands of the Indigenous Peoples (First Nations, Inuit, Métis) of Canada. We honour the ancestry, heritage, and gifts of the Indigenous Peoples and give thanks to them.

Mission

Athabasca University, Canada's Open University, is dedicated to the removal of barriers that restrict access to and success in university-level study and to increasing equality of educational opportunity for adult learners worldwide.

History

- 1970** Established by Government of Alberta on June 25, 1970
- 1972** Pilot project as an open, distance university
- 1973** First course 'World Ecology'
- 1976** First degrees offered in Bachelor of Arts: Liberal Studies and Bachelor of General Studies
- 1978** Permanent self-governing status as Alberta's 4th public university
- 1984** Relocated to Athabasca
- 1992** Revised mandate to offer Master's programs
- 1994** Introduced world's first online MBA
- 2001** Established Centre for World Indigenous Knowledge and Research (renamed 'Nukskahtowin' in 2019)
- 2006** First Canadian public university regionally accredited in U.S.
- 2008** First Doctorate program, Doctor of Distance Education (EdD) opened
- 2019** PowerED™ launched
- 2020** AU celebrated 50 years
- 2021** Start-up phase announced for Integrated Learning Environment (ILE)
- 2022** Faculty of Business received AACSB accreditation as one of the world's best business schools

2022-23 Learners' Profile

- **35,592** learners (31,043 Undergraduate & 4,549 Graduate).
- Unlike traditional Universities where most learners pursue a credential, about **41%** of AU's learners were **Open Studies** (Non-Program/General interest & Visiting learners) who do not receive an AU credential.
- **Average age of learners was 33 years old** (Undergraduate average age: 32 years old, Graduate average age: 38 years old).
- **68%** of all learners were **female** (66% of Undergraduate learners were female, and 78% of Graduate learners were women).
- **4.7%** were self-identified Indigenous learners.
- **44%** of all learners resided in **Alberta**.
- **12%** of Canadian learners resided in **rural areas**.
- **3.8%** were international learners (on visas or offshore learners).

RESEARCH

Research Funding for Graduate Students

Athabasca University financially supports the research of our graduate students through the Graduate Student Research Fund (GSRF) and other research awards.

The **Graduate Student Research Fund (GSRF)** is intended to:

- enhance the research experience of award recipients
- foster research creativity and innovation
- support graduate students' research-focused endeavors
- encourage dissemination of master's or doctoral research
- acknowledge graduate students' contributions to AU's research climate

The fund provides awards to both master's and doctoral students.

Visit [Graduate Student Research Fund](#) for information on the application process, including deadlines and guidelines.

Research Funding for Graduate Students

Other funding sources

AU also provides or administers a number of graduate scholarships and awards to help students conduct and disseminate research. Text

- [Faculty of Graduate Studies – Graduate funding](#)
- [Office of the Registrar – Awards for Graduate students](#)

External funding

The Research Centre maintains a [calendar of external funding opportunities for graduate students](#) and will help you apply for these awards.

Research Institute

Athabasca River Basin Research Institute (ARBRI)

The Athabasca River Basin Research Institute (ARBRI) leads in research related to the environment to the environment, ecosystems, and communities of northern Alberta.

Canada Research Chairs

Canada Research Chair in Hydrological Sustainability

Dr. Scott Ketcheson, Faculty of Science & Technology

As a field hydrologist, Dr. Ketcheson studies the movement of water between forests, wetlands, and streams in northern Alberta. His research program uses both traditional hydrological techniques and innovative sensor networks to gain a direct process-based understanding of the hydrological function and importance of headwater catchments for generating freshwater in tributary river networks within the Athabasca River Basin. Additional information on Dr. Ketcheson's hydrology research can be found on his website: [AU Hydrology](#).

Canada Research Chair in Sound Studies

Dr. Mickey Vallee, Faculty of Humanities and Social Sciences

Dr. Vallee's interdisciplinary research focuses on innovation in sound-based technologies and how new local and global research communities can be built around these innovations. By building an understanding of the personal and collective experiences that people have with emerging sound technologies, Dr. Vallee will investigate how the sciences, social sciences, arts, and humanities engage with technological innovation.

Athabasca University Chairs

UNESCO/ICDE Chairholder in Open Educational Resources (OER)

Dr. Rory McGreal, Faculty of Humanities and Social Sciences

Dr. McGreal is responsible for promoting the use and reuse of free, openly licensed educational content institutionally, nationally, and internationally, with a particular focus on developing countries. Both UNESCO and the International Council for Open and Distance Education (ICDE) support the use of open educational resources (OER) as being essential for the achievement of the UNESCO Sustainable Development Goal 4: Education for All. He has delivered OER seminars, keynote presentations and conducted workshops in more than 60 countries.

Commonwealth of Learning Chairholder in Emerging Technologies in Open and Distance Learning

Dr. Mohamed Ally, Faculty of Humanities and Social Sciences

Dr. Ally is conducting research that will impact both developed and developing countries. He is currently a Canadian expert on information technology for learning, education and training (ISO/IEC JTC 1/SC 36) (Information technology for learning, education and training) to set international standards for mobile learning, online learning, virtual reality, and augmented reality. Professor Ally has edited/co-edited 15 books on the use of emerging technologies in education and presented speeches at many national and international conferences. He is a founding director of the International Mobile Learning Association and the International Association for Blended Learning.
